MarAdmin 628/02

- Introduces this system to the Marine Corps outlining the following:
  - Purpose of Web Orders
  - Functionality Of Web Orders
  - The goal of Web Orders
  - Phases of Web Order

Purpose of Web Orders

- To improve the functionality of the current orders process (AOWPS) by maximizing the expanded features of the internet and integrating this functionality with the inherent capabilities of the Monitor Assignment Support System (MASS)
- MASS is a HQMC application that is used to assign Marines PCS/PCA orders via the Web Orders System, this system is used by HQMC only

The Enhanced Functionality of Web Orders will include:

- An enhanced tracking capability for all HQMC designated recipients to monitor the disposition of orders at all times
- A security system that allows positive management of orders delivery and receipt
- Gives the local MISSO authority to assign, update, or delete order writing activities access to Web Orders
- The capability to distribute full-text orders in a format that is printable from the internet to all HQMC designated recipients
- Gives the order writing activity an

Goal of the Web Orders System

- To complete the full automation of the assignment process, practically eliminating the use for naval messages.
- The Goal will be achieved in a two phase process.
- To combine both officer and enlisted orders under one joint system.

Phase I

- **Will allow monitors to assign Marines PCS/PCA through the MASS application, with delivery and receipt utilizing web order**
- **Will update MCTFS for both officers and enlisted alike**
- **Will provide detailed orders unlike AOWPS, these orders will be easy to read, reducing the need to decipher confusing acronyms and verbiage**

MarAdmin 395/03

- Highlights the functionalities of Phase II:
  - Consolidated web-based inbound/outbound roster
  - View only access
  - Email notification

View Only Access

- We have created a “View Only”access to Web Orders but it is still limited to certain Admin personnel outside of the order writing activity

Email Notification

- For Marines to get a notification telling them that they are in receipt of orders, they need to get an MOL account
- They need to fill out the monitor contact page in MOL. On that page it ask for an email address.
- Whatever address they provide on that page that is where the notification will go
